

Project Design Phase-II

Data Flow Diagram & User Stories

Date	27 june 2026
Team ID	
Project Name	Licensed Software Installation Request Management System using ServiceNow
Maximum Marks	

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Example:

DFD – Level 0 (Context Diagram) Licensed Software Installation Request System

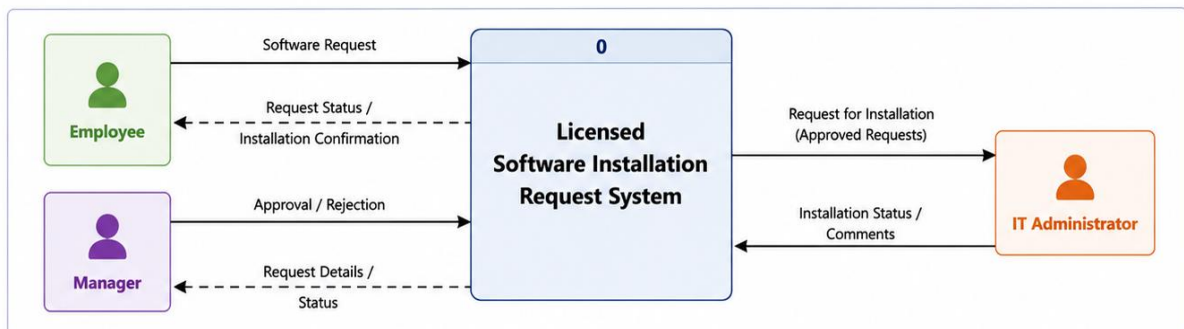

Figure 1: DFD – Level 0 (Context Diagram)

DFD – Level 1 (Detailed Diagram) Licensed Software Installation Request System

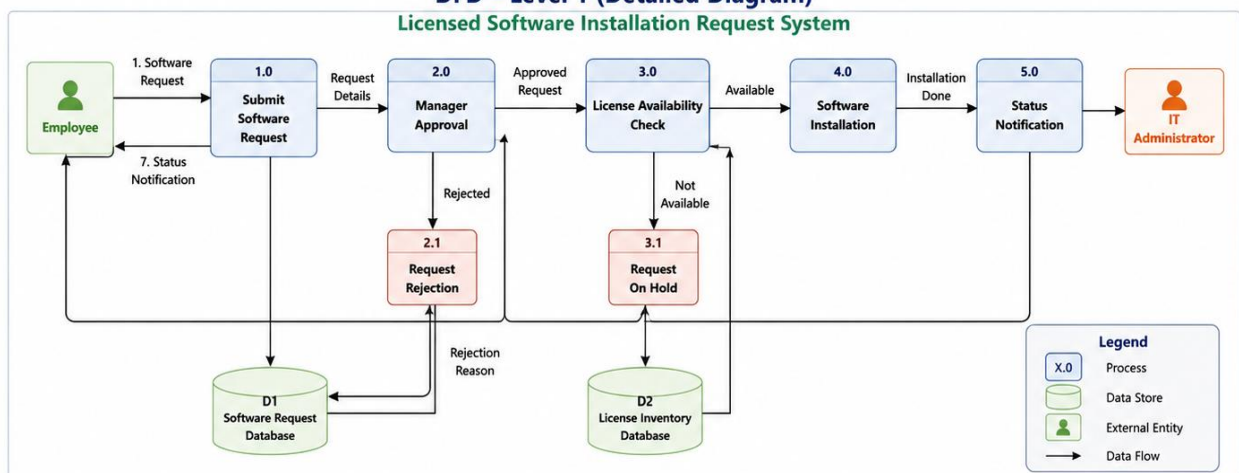

Figure 2: DFD – Level 1 (Detailed Diagram) with Example

Example Scenario: Employee (Anita) requests "AutoCAD" software → Manager approves → System checks license → License available → IT Admin installs AutoCAD → Employee receives installation confirmation.

User Stories:

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance Criteria	Priority	Release
Customer (Employee)	Software Request	USN-1	As an employee, I want to submit a licensed software request through the service portal	I can submit a request form successfully	High	Sprint-1
Customer (Employee)	Software Request	USN-2	As an employee, I want to select the required software and version	I can choose software from a predefined list	High	Sprint-1
Customer (Employee)	Software Request	USN-3	As an employee, I want to provide business justification for the software	Justification field is mandatory before submission	Medium	Sprint-1
Customer (Employee)	Tracking	USN-4	As an employee, I want to track the status of my software request	I can view request status in the portal	High	Sprint-1
Customer (Employee)	Notifications	USN-5	As an employee, I want to receive email notifications for request updates	I receive emails on submission and approval/rejection	Medium	Sprint-2

IT Support / Software Admin:

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance Criteria	Priority	Release
IT Support	Fulfillment	USN-9	As IT support, I want to install approved software	Software is installed after approval	High	Sprint-1
IT Support	License Management	USN-10	As IT support, I want to verify license availability	Installation proceeds only if license is available	High	Sprint-1
IT Support	Closure	USN-11	As IT support, I want to close	Request moves to Closed Complete state	Medium	Sprint-2

Manager (Approver):

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance Criteria	Priority	Release
Manager	Approval	USN-6	As a manager, I want to approve or reject software requests	I can approve or reject requests from approval inbox	High	Sprint-1
Manager	Approval	USN-7	As a manager, I want to view employee justification before approval	Justification is visible before taking action	High	Sprint-1
Manager	Notifications	USN-8	As a manager, I want to receive approval request notifications	I receive email notifications for approvals	Medium	Sprint-2
